

TAB STORAGE SYSTEMS

UNISTOR

Improve Storage and Productivity

TAB's UniStor high-density file system provides an efficient, cost effective storage solution for organizations that need to maximize the use of available records storage space. Additionally, UniStor's lateral filing method is easier and quicker to access than standard pullout drawers, allowing multiple users to access records simultaneously. Used alone or in combination with other TAB solution components, UniStor provides customers with a substantial return on investment, both in dollars and increased productivity.

Unit Box Efficiency

Based on storage concepts pioneered by TAB to provide customers with options in stationary or mobile environments, UniStor offers all the economy of 4-post shelving with the added efficiency of unit boxes. Unit boxes allow for quick and easy shifting of large groups of files and, unlike open shelving, protect files from slumping and sagging over the long term. With unit boxes, physical reorganization of large groups of files is easy because the boxes shift freely from one position to another.

The added value and efficiency of unit box construction makes UniStor ideal for large archive areas where space is at a premium but costs must be minimized. UniStor can accommodate either letter or legal size unit boxes and files, and is available in single and double-sided units for increased flexibility. For maximum high-density storage, UniStor can be mounted on TAB's mobile carriages.

Features

Achieve high-density storage and file maintenance and protection for the price of standard 4-post shelving

Allow effortless shifting and reorganization of files

Maintain file integrity by eliminating slumping and sagging, available in letter or legal size

At 25⁷/₈" for double-sided letter size file units, you save almost 4 inches of floor space compared to more expensive cantilever filing systems

Both sides of the unit are accessible with UniStor's unique back-to-back upright construction

UniStor is available in multiple widths and colors, and in depths to accommodate letter or legal files

UniStor can also be mounted on TAB's mobile carriages for increased capacity
